

Makluman kepada penyelidik : Sambungan MYREN ke TEIN3

Sukacita disampaikan makluman yang diperolehi daripada pihak MYREN NOC, Cyberjaya.

We are pleased to announce the third generation of the Trans-Eurasia Information Network (TEIN3) is linked to MYREN with a bandwidth of 155Mbps.

It currently connects 11 countries in the region, and provides direct connectivity to Europe's GEANT2 network. TEIN3 offers Asia-Pacific a gateway for global collaboration, enabling over 30 million users across the region to participate in joint projects with their peers in Europe and other parts of the world.

Browse <http://www.tein3.net/> for more information.
