**MANAGEMENT AN UPDATE 2011**

Looking Beyond the Horizon

Introduction

Pain is one of the most common reasons why people seek medical treatment. This year the International Association for the Study of Pain is celebrating the "Global year against acute Pain". The Malaysian Association for the Study of Pain is actively supporting this theme. Pain management can be improved with education of healthcare providers and well as partners. The Department of Anaesthesiology and Intensive Care, Universiti Kebangsaan Malaysia Medical Center and The Malaysian Association for the Study of Pain have made a conjoint effort to organize this conference to promote better quality in pain management by improving the knowledge and skills of healthcare providers with regards to acute pain management. The theme of this conference is "Looking beyond the horizon" emphasizing on the importance of having up-to-date knowledge in achieving effective results and patient safety. The conference aims to provide not just theoretical information on pain and its management, but also has workshops where participants can gain practical experiences and tips on how to make pain management achieve its impact.

**Target audience:** Anaesthetist, Pain Specialist, Oncologist, Surgeon, General Practitioner, Medical Officer, Palliative Care Team, Hospis, Nurse, Physiotherapist, Pharmacist, Allied Health.

**A Prof Dr. Choy Yin Choy**

# Invitation/Flyer Design

## Inlay

**30th Sept 2011 – Friday**  
**Preconference workshop (concurrent sessions)**

**Ultra Sound Guided Peripheral Nerve Block**  
**Faculty : A Prof. Carina Li,**  
**FANZCA, The Chinese University of Hong Kong**  
**Venue : Lecture hall 1,**  
**Academic Block, PPUKM**  
**Time : 8.00am to 5.00pm**  
**Limit : 50 participants**

This workshop aims to introduce the principles of ultrasound imaging for peripheral nerve blocks. It will consist of lecture / live video demonstration of block performed by experts. Hands-on session will include scanning of the upper and lower limbs on models and visualization of needle tip by ultrasound.

**“PAIN” As 5th Vital sign**  
**Faculty : Dr. Mary Cardosa, Hospital Selayang**  
**A Prof Ho Siew Eng, PPUKM**  
**Venue : lecture hall 2,**  
**Academic Block, PPUKM**  
**Time : 8.00 am to 1.00 pm**  
**Limit : 80 participants**

The workshop aims to initiate and increase awareness among healthcare providers regarding the importance of monitoring pain & its’ management options. The session will include theoretical information on pain and its management. The objective is for participants to gain practical experience and tips on how to make “Pain as the 5th Vital Sign” contribute to improved patient wellbeing and safety. There will also be brief discussion of acute pain including demonstrations and discussion on pain management techniques e.g. the use of PCA pumps. There will be opportunities for participants to have hands-on experience.
