Introduction

The Regional Engineering Postgraduate Conference 2009 EPC2009 is inspired to provide a unique platform for postgraduates from various universities in Malaysia and neighbouring regions to meet, exchange ideas and share their experience in their latest research. This two day conference is organised by the Faculty of Engineering & Built Environment of the National University of Malaysia (Universiti Kebangsaan Malaysia – UKM). The conference theme ***Innovation Through Engineering Research*** will highlight on research topics that span across civil, mechanical, chemical, electrical and electronics engineering.

Objectives

The objectives of the conference are:

- To enable postgraduates to gain experience in presenting their work in a formal conference environment.
- To create a platform for academic exchange between the research community in Malaysia and neighbouring countries.
- To establish networking among the researchers within the region and develop collaborative efforts.

Scope of Conference

The conference seeks papers in all aspects of engineering including (but not limited to) the following topics:

Architectural Engineering

Electrical & Electronics

- Power System and Energy
- Communication
- Control Systems
- Microelectronics
- Computer

Mechanical & Manufacturing

- Computational Mechanics
- Energy
- Materials
- Manufacturing Process, Systems & Management
- Thermofluids

Chemical Engineering

- Separation Technology
- Drying & Powder Technology
- Fuel Cell Technology
- Biochemical Engineering
- Process Engineering

Civil Engineering

- Transportation
- Structures, Materials and Construction
- Geotechnics
- Environment and Water Resources
