Subject: Congratulations on recruiting your 50th patient to the AVERT Trial - UKM Malaysia

Dear Katijah and Team,

Congratulations on reaching a major milestone!

Recruiting 50 patients into a trial is a major undertaking and we really value not just the effort involved in recruitment (which we know is considerable) but the contribution that everyone makes to the care of these patients, data gathering, data entry and reporting. Trials are complex creatures and as we move towards the end of this study I just wanted to thank you again for your efforts and to let you know how much they are appreciated.

Well done to you all and thanks for your excellent contribution to our AVERT Trial.

Warm regards,

Julie Bernhardt and the AVERT Team
