Joint Committee of
Faculty of Medicine University of Indonesia
Faculty of Medicine Universiti Kebangsaan Malaysia

INTRODUCTION

Faculty of Medicine University of Indonesia (FMUI) as one of the leading institutions under University of Indonesia should support University of Indonesia aims to become a research university by giving priority to research program besides their mission to conduct professional education.

As one of the activities to promote research communication with other universities in the region, we plan to hold the 2nd Indonesia Malaysia Medical Sciences Conference on August 3 and 4 in Jakarta. This conference is a follow up from 1st Malaysia Indonesia Medical Sciences Conference, which was held in Kuala Lumpur last July and was organised by University Kebangsaan Malaysia. From the first meeting we agreed to have some collaborative research between these two institutions in some fields of research including metabolic disorders & cardiovascular disease, cancer & cytogenetic, antioxidants/herbal & complementary medicine & allopathic, infectious disease & vaccines, blood disorders & bleeding, molecular biology & functional genomic, tissue engineering & implant, cellular & gene therapy, neurosciences & reproductive medicine and community medicine.

We have abundant hope in realizing research collaboration between two countries and in the future inventing new research products that will increase our community health and well being. We would like to invite active participation from other medical institution to join this conference.
