Medical Microbiologist, UPM

## Message from the Chairperson

Welcome to the 8<sup>th</sup> Annual Infection Control Seminar with a much improved structure that will enhance educational experiences and provide valuable take-home messages for all.

The theme for this year is “**Infection Control: Facing The Challenges**”. In this decade we have been faced with various infection control challenges like SARS, Avian flu, Dengue epidemics and HFMD. We hope this seminar will enlighten us on how to strengthen strategies in addressing the infection control challenges.

We are privileged to have the Asia Pacific Society of Infection Control (APSIC) Executive Committee and an eminent Infection Control Practitioner from Saudi Arabia, **Professor Dr Ziad Memish**, as our honorable guest speakers for this seminar. Together with our local panel of speakers, you will share their rich experiences and wide knowledge in infection control.

Professor Dr Ziad Memish is specially sponsored under the Infectious Diseases Visiting Fellowship Program of the MMA Foundation Infectious Diseases Fund.

On behalf of the Organizing Committee, it is with great pleasure and honour that I invite all doctors, nurses, paramedics, microbiologists and hospital administrators to come forward and participate in this seminar. I am confident that all participants will find this seminar enriching and stimulating.
