

IT Talk : Practical Tips for Keeping Teens Safe Online

Talk Synopsis:-

Today's teens spend a lot of time online. They engage in various activities such as shopping, blogging, surfing, etc., all of which present threats. The talk covers the ethical and legal threats linked to illegal downloads, e.g. P2P music sharing; and how nasty people such as spammers and cyberbullies, wireless freeloaders and chatroom "friends" have hidden agendas.

Suggestion of agenda:

- **Dean of UKM to give an introduction**
- **powerpoint presentation by Linda Mc Carthy- half an hour**
- **Q&As for the next 20 minutes**
- **Book signing (selling at RM48.80, usual price RM61) & Norton Special for UKM (Norton Antivirus RM60 - usual price RM154, Norton Internet Security RM100 – Usual price RM264) - 30 minutes**
- **Tea session with VIPs**

Please note: this special price is applicable ONLY during this special event with UKM.

About Linda

Linda McCarthy, author of Own your Space, Security Architect and mother of two teenagers will also talk about what some of these technical threats like trojans, worms and phishing are. She will also share with you, practical and technical tips on how to protect yourselves online. The talk is perfect for everybody.
