

INTERNATIONAL CONFERENCE ON MATHEMATICAL SCIENCES

“Integrating Mathematical Sciences within Society”

28-29 November 2007
Equatorial Hotel
Bangi-Putrajaya, Malaysia

The mathematical sciences is a subject of key global importance, underpinning developments in most areas of science and technology. The growing concern on the transfer of mathematical sciences knowledge demands the enhancement in the competency of this discipline. Applying mathematical sciences to challenging problems of the real world has made the field bustling with excitement and satisfaction. Thus, it is with great pleasure for the School of Mathematical Sciences, Universiti Kebangsaan Malaysia together with the Malaysian Mathematical Sciences Society (PERSAMA) to present the International Conference on Mathematical Sciences 2007 to bridge as well as nurture the understanding and collaboration amongst the regional and global mathematical scientists and practitioners.

Focus areas: Theory and applications of mathematical sciences in engineering, medical, biotechnology, insurance, finance and other related areas.

We cordially invite academicians, researchers, scientists and interested parties to join this event in the serene campus town of Bangi-Putrajaya, Malaysia. We are also proud to inform you that 2007 is the *official Visit Malaysia Year!*
